- Join us for experiential, collaborative exploration in the Spirit.

Our society bubbles over with fear in politics, pandemic, and serious concerns for justice during economic and environmental crisis. We need people to be able to follow the subtlest motions of Leading

through fear—to protect and care for themselves, to protect and care for others and the common good. We can “follow the Guide in all circumstances” as early Quakers said it. ...including in and through fear.

Guiding Queries:

1. What is your relationship to your own and others' fear?
2. What kind of prayer or spiritual practice best supports your faithful response to your own or others' fear?
